

Adam Van Aert joins METOS Canada

November 11, 2020 - METOS[®] Canada welcomes Adam Van Aert to the team, in the role of Precision Ag Specialist. In this role, Adam will be involved in testing and in field setups along with supporting our customers and dealer network.

Having grown up on a farm outside Winnipeg, Adam has been immersed in the agriculture industry his entire life and has first-hand experience with the revolution in ag technology. Adam recently completed schooling in environmental engineering and chemistry, with a focus in environmental monitoring and analysis for farmland across the Prairies.

Adam's experience in agriculture mixed with his passion for digital advancement in the industry make the position of Precision Ag Specialist a natural fit. Adam is eager to see this technology become an accessible tool for farms to maximize their potential.
